We Welcome Staci Holden to In-House Production.

Staci Holden
Accounting Manager

IHP is entering the 21st Century with our labor sign-in system. We are working with Computer Programmer's, Accounts and our On-Site, Sign-In Staff to develop a state of the art "Bar Scan In and Out" system for our Las Vegas Labor. We will be able to use the IATSE Unions badges, ESCA badges or supply ID Bar Scan badges for those that have none. With Large or Small Crews, this new Scan-In System will be able to keep track of Jobs, Booths, Equipment, or Hours per job and give an end of day hour break-down. The On-Site Staff will be able to Change Workers Names, Hours, Placements and Departments with the new Desk-Top Window.

When the workers Sign-Out, they will have several choices on how they want to receive their daily work log. This can be paper, e-mail or text. We will also be able to send the client a daily labor break-down at a push of a button.

This improvement in processing will save on Payroll Costs, Time Sheet Accuracy, Workers Sign-in / Sign-out time, and overall Accountability. We will Keep you Posted!
